

Di.Es.Is. Academy – Highest certificated Masterclasses

Roma - Via di Pietra, 70

Di.Es.Is. Academy recommences once again this year with Masterclasses

Situated in the heart of Rome, it offers professional students a highly prestigious training experience to complete their previous education and training.

Quality teaching staff, connections with the world of work, efficient and prestigious facilities are just some of the strengths of the Academy's post-graduate training courses.

Di.Es.Is. Academy believes in young people, giving them quality and skill as well as the chance to engage in teamwork and regularly perform in top level concerts.

Valuable training combined with the development of awareness and discipline...

But that is not all!

The freedom and joy of using their art as a form of expression...

The Academy aims to act as an instrument to help young people use music to make a living in the world.

Our teachers, selected from the biggest names on the international scene, have their own solo, orchestral and chamber careers, preparing their students for the profession by choosing the teaching methods and facilities they deem most effective.

Specifically to meet students' needs to share the skills they have achieved, not to mention foster awareness and responsibility, the Academy organises top level concerts in which students can perform regularly.

Our students perform, often with the teachers who train them, in chamber groups, solo recitals and chamber orchestras in the cathedrals and halls of central Rome.
