International Interdisciplinary Art Competition

Combine Music with another art form (Visual Art, Dance, Theater...) and create a performance based on a theme:

Fish

Why Fish?

Fish is known as a noun, verb, or a metaphor, and is inspiring in so many different ways!

A water creature, fish lives in salt and fresh waters. We know fish are intelligent and social animals that exist in virtually every color, yet we feel like there is still so little that we actually know of them. Spiritually, fish symbolizes rebirth, fertility, the unconscious or higher self, luck, change, health, and feelings. Fish is also commonly associated with the element of water, which signifies stability, balance, and tranquility.

We are excited to see how this year's contestants will collaborate and show off their artistry and creativity. They will get a chance to win prizes worth over 25.000€, including live performance opportunities, international press exposure and cash prizes.
